

Scratch Project 1: A Scratch Animation

Your job in this project is to animate your name as per the demo. You have 2 classes to finish your animation, after which we will share our animations with the class. We will also be uploading these to the Internet.

Level 1 Criteria		
Task	Marks	Description
Sprite design	/5	You must use at least 10 interesting sprites. The existing scratch sprites are less interesting (aka: worth less marks) than creating your own (either drawing them or downloading them).
Scripting	/5	You must use at least 10 different scripts in creating your animation. At least one of the scripts should be interactive (eg: a script that is triggered when you press a key or use the mouse).
Quality	/6	Was your name animated in a unique and interesting way?
Total	/16	
Level 2 Criteria		
Task	Marks	Description
Costumes	/1	At least one of your sprites should use more than 1 costume.
Animated Stage	/1	Find a way to add animation to your stage (background).
Sound Track	/1	Create a looping soundtrack for you animation. You are welcome to use scratch sound files.
Pen Tool	/1	Find a way to use the pen commands in your animation.
Level 2 Total	/4	
Grand Total	/20
